

Microsoft Power BI 'Dashboard in a Day' Workshop

Discover how Power BI can help you supercharge your business data

Explore business intelligence like never before with Microsoft Power BI - a cloud-based suite of business analytics tools that allow users to obtain critical insight from data.

Learn how to exploit large and constantly growing data sets to produce insightful reports that analyse, visualise and share important information to help your organisation do what it does even better.

Power BI 'Dashboard in a Day' Workshop

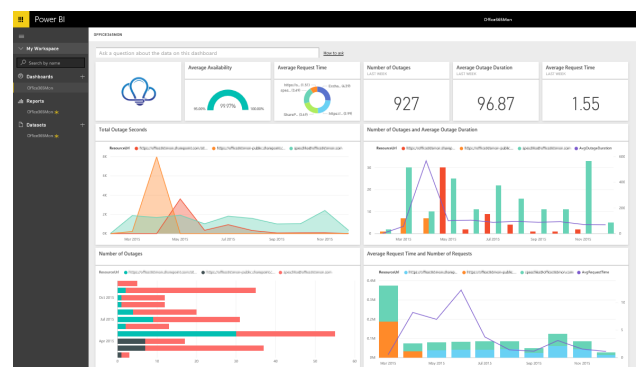

This one day workshop is designed to introduce Microsoft Power BI. The technical experts at SystemsUp will provide an overview of Power BI Desktop, Power BI Service, and Power BI Gateway. They will explain the differences between Power BI Desktop and the Power BI Service, and how the Service can connect to on-premise data through the installation of the Power BI Gateway.

Key workshop benefits

- ◆ Familiarisation with the Power BI Desktop
- ◆ Understand how to connect to data sources
- ◆ Understand how to transform data
- ◆ Understand what a data model is and how to build one
- ◆ Author reports using the Power BI Desktop
- ◆ Create dashboards via the Power BI Service

Sample Workshop Agenda:

- ◆ Introduction to the Power BI Platform
- ◆ Installing Power BI Desktop
- ◆ Introduction to the Power BI Desktop
- ◆ Overview of the Power BI Desktop Interface
- ◆ From Zero to Hero – A Practical Exercise in Power BI
- ◆ Extracting and Transforming Data using Power BI Desktop
- ◆ Publish reports to Power BI Desktop
- ◆ A look at the Power BI Gateway

Our workshops show you how better business outcomes are enabled by technology
Drive digital transformation within your organisation with our guidance
