# Cloud Enablement Workshop

Understand the business benefits and operational requirements of different cloud platforms

Every organisation will have a different journey to the cloud. However each one will need to make that journey in a structured and focused manner.

Through our one day Cloud Enablement Workshop, you will be shown how to use best practice to build a comprehensive approach to cloud computing across your organisation and transform your processes, technology and above all, your people to support it.
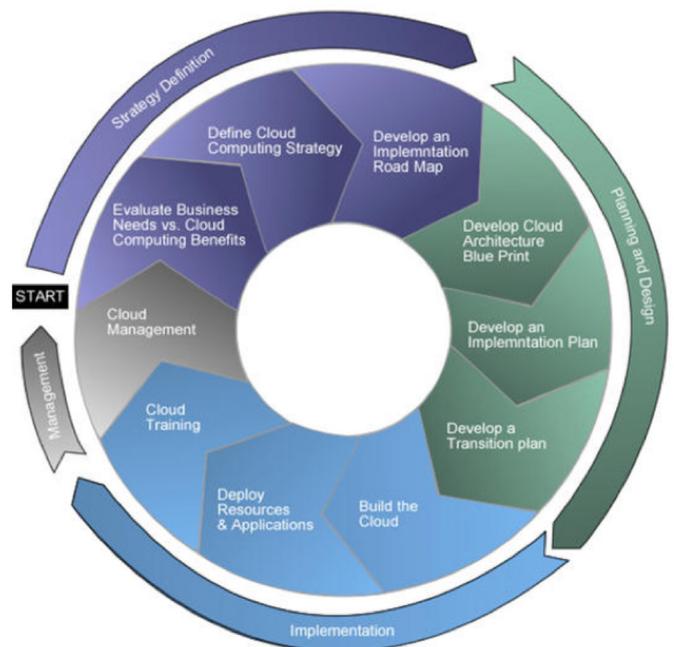

Using their experience and insight our consultants help organisations accelerate the journey to the cloud, while driving costs savings, flexibility, security and compliance for mission-critical applications.

They are experienced in deploying complex cloud architectures across all the main cloud platforms, including hybrid.

SystemsUp works with you to align your business and IT strategy and guide you to the cloud with confidence.

The cloud has the power to transform your business.

Plan your move with our Cloud Enablement Workshop.

## Five key benefits of our Cloud Enablement Workshop:

- ◆ **Insight** Understand the capabilities of the different cloud platforms to meet your business challenges
- ◆ **Benefit** Understand the operational and management changes that need to be made for using cloud services
- ◆ **Assess** Analyse the business and IT drivers for change. Determine cloud readiness through reviews and SWOT analysis
- ◆ **Architect** Whiteboard scenarios and architectural overviews
- ◆ **Roadmap** Through a high level review of which business and IT assets are most suited for migration, create the optimum roadmap for cloud adoption

# Cloud Enablement Workshop

**Our workshop gives insight into the range of cloud solutions available and explores which ones can best meet your business challenges and deliver transformational change to your organisation.**

**It begins with a pre-workshop call where we understand your requirements, explain the workshop structure and agree who will attend.**

## Here is a sample agenda for a workshop:

- ◆ **Overview of business model**
